Risk and Reward Profile

Risk Disclaimer

The risk and reward indicator illustrates where the Sub-Fund is positioned in terms of its possible risks relative to its potential rewards. The higher the Sub-Fund's position on this scale, the greater the possible reward, but also the greater risk of losing money. This risk indicator is calculated using historical data of the prices of the fund (or its benchmark in case of a new sub-fund) which may not be a reliable indicator of the future risk profile of the Class. The lowest risk category cannot be regarded as being risk-free. The value of shares can rise and fall and accordingly, an investor may not get back the full amount invested.

Why is this Sub-Fund in this category?

Based on preliminary calculations, the level of the risk-reward profile is 5='medium-high'.
